Also, your portal has been shut down for some reason and I cannot submit anything for case WBF1591284467-540

I believe individuals in the CRA, Canadian Revenue Agency, are in collusion with the rotary club and its associated members.

As reported to the Sault Ste Marie police force, Police Report SM25016709. I was in Nicaragua during covid, and unable to do my taxes from approximately 2021 to 2024. When I returned officially, I have been in the middle of this fiasco trying to reconcile these issues and sort out my financials. I cannot file my taxes, because everything is in limbo, and it could mean me false reporting based on evidence I have uncovered so this was reported to the local police.

I believe a false report is exactly what the rotary club, operating covertly within the CRA, is aiming to do. This is because the CRA has issued me a fake amount outstanding. I did not file taxes, but they have sent me paperwork stating they determined my taxes for me, and that I currently owe \$58,744.26 Is this even possible? This amount claimed in fraudulence, without any due diligence, or with any of my existing financials during this time. I am reporting this in case the OSC has received any financial paperwork from the CRA post 2021 which is quite simply not true.

Also, I have been getting harassing phone calls, threats, twice a day for months since my return. I initially thought these phone calls were from ECI Development, but upon investigation, all these phone calls are spoofed from Canadian phone numbers, and I believe they are incited by the CRA.

I also believe a large life insurance policy to be taken out on me while in Nicaragua, and there may have been a plan to murder me for my money, and the life insurance money. A death certificate may have been issued against me as well after they poisoned me in Nicaragua. If possible, I am requesting the OSC search for life insurance policies in my name, as they have 100% been taken out to defraud companies. I did not take out any life insurance policies on my own life.
